Your Packaging Professionals

FIBCS

Directly representing Korea Polymers in the United States, a fully integrated manufacturer of bulk bags with plants in Indonesia, China, and Vietnam. Also representing domestic plants located in Mexico. We feature a wide variety of styles and constructions, in tubular, u-panel, four panel, baffle and fabrics for type C and D bags. We offer warehousing and JIT delivery or direct shipment in containers to your facility.

SEA BULK LINERS

Representatives for Dacro B.V., an ITW company, manufacturers of custom liner systems for ocean containers and over the road trailers for the shipment of petrochemicals, food products, minerals, and carbon black. They are the innovators of the new tilt-less bulk liner.

RETURNABLE HARDWALL CONTAINERS

Representing Composite Container, LLC, a manufacturer of polypropylene reusable hard sidewall containers. This shipping container can be used for a wide variety of products including liquids.

MULTI-WALL PAPER AND POLY VALVE BAGS

Directly representing Shuaiba Paper Products Company, a Kuwaiti manufacturer of multi-wall paper bags. Offering a wide variety of styles, paper combinations and high graphic print options. We offer warehousing and JIT delivery or direct shipment in containers to your facility with competitive lead times.

Representing PolyBol, a manufacturer of poly valve, open mouth and form fill and seal bags, located in Cartagena, Colombia. We can provide high quality co-extruded poly bags, with high quality graphics on a JIT basis or directly shipped to your facility with excellent lead times.

PLASTIC SLIP TRAYS

Distributors of the highly inventive plastic slip tray produced domestically by Enviropak. These high quality cost effective alternatives to wooden pallets, offer a new way to ship bulk bags, bulk boxes, and 50 kg bags for domestic and overseas deliveries to your customers. They are also a competitive alternative to expensive heat-treated pallets currently used in overseas containers.

BULK BAG RECYCLING

Our AIB certified bulk bag recycling facility is located in Lykens, PA. Offering a full service cleaning, tracking, collection, and distribution center for bulk bags. Recycling bulk bags is not only good economics by extending the life of your bags, it is environmentally friendly by keeping them out of landfills.

REPROCESSING AND CO-PACKING OPERATIONS

Providing partnering relationships with facilities offering a wide variety of services related to co-packing, re-packing, logistics, warehousing and other areas of fulfillment that can be tailored specifically to the needs of our customer's products.
